## **PRODUCT DATA SHEET**

### **STAR PREMIUM OILS GEAR OIL**

Star Premium Oils Gear Oil is a premium quality, true multi-purpose gear oil blended from highly refined high viscosity index base stocks. Star Premium Oils Gear Oil is more economical than oils of lesser quality and lower initial cost due to our combination of highly refined base oils and up-to-date additive technology. Equipment life may be longer and more trouble-free, and maintenance cost and downtime may be reduced through the use of Star Premium Oils Gear Oil in combination with a dedicated preventive maintenance program. Equipment manufacturer recommendations and conventional guides to lubricant selection should be followed to determine the best applications. Star Premium Oils Gear Oil contains additives which convey characteristics most desired in these types of lubricants:

- Excellent chemical & thermal stability
- Excellent rust & corrosion protection
- Excellent anti-foam protection & oxidation resistance
- Excellent load-carrying ability
- Excellent sludge formation resistance

#### **APPLICATIONS:**

Star Premium Oils Gear Oil may be recommended for the following application:

- When API GL-5, GL-4 or GL-3 gear oils are required
- When MANN 342M-2 gear oils are required
- When MIL-L-2105D gear oils are required
- In all domestic automobile differentials and some manually shifted transmissions
- In oil lubricated wheel bearings

#### **AVAILABLE IN:**

- Bulk
- 55 Gallon Drums
- 16 Gallon Quarter Drums
- 5 Gallon Pails
